**COMMENTS (SEE BACK)**

- Long Load Time
- Font Face may not be available on all machines
- Missing Quotation Marks
- Missing Alt, Height, Width – slows down load time
- Be careful of Font Color names in MSIE
- Missing client contact information

**The Code**

- Create a comment section at the top of the page. Include your name, assignment name, and date.
- Skip a line before each major section of the web page.
- When typing code, press <ENTER> at logical breaks (between tags or properties, after paragraphs, etc.)
- HTML tags are to be in lowercase.
- All filenames are to be in lowercase.
